SCHOOL BUS DRIVERS

NOTE: Works well with Idaho School Bus Driver Training Classroom Curriculum Section #_____

ABS, Driving a School Bus With, “Counting on You” VHS 9226, 9227 or 9228 **5 minutes**
Section 4

Film shows some good tips on driving a bus with an anti-lock brake system. (Copyright 1998)

ABS, “When the Need Arises” VHS 9241 **7 minutes**
Section 7

Bendix antilock and traction control for school bus drivers. (Copyright 1997)

Accident, What to Do in Case of an VHS 9251 **20 Minutes**
Section 8

Discusses the following steps to take at an accident scene, whether you’re involved or not: (1) Protect the scene, (2) Assist injured persons, (3) Notify authorities, (4) Notify your company, and (5) obtain information. (Copyright 1997)

Accidents – Bus vs. Car SLIDES 9029

Slides (pictures) of accidents between buses and cars. (Copyright 1997)

Accident Procedures VHS 9302 **30 minutes**

This training program is designed to serve as basic training for new school bus drivers and refresher, or post-incident, training for veterans. This teaches the driver to have a proper, thorough procedure to follow at the scene of a crash. (Copyright 2003)

Activities Bus, Driving The VHS 9066

15 minutes

Section 7

Helps the driver understand the added responsibilities of the planning requirements for activity bus operation.

Alcohol and Substance Abuse VHS 9255

20 Minutes

Section 7

Shows what to look for if someone around you is using drugs – someone who could seriously injure you in an accident. Explains in detail the symptoms of various drugs used. Motivates the viewer to support anti-drug programs in the work place. (Copyright 1994)

Basic Driving Skills VHS 9059

19 minutes

Section 4

Includes proper choke usage, braking operations, and correct procedures for left- and right-hand turns, etc.

Bloodborne Pathogens for Bus Drivers VHS 9053

15 minutes

Section 8

It's important to protect the lives of children while transporting them to and from school. This video will help ensure that bus drivers understand standard precautions that can prevent the spread of bloodborne pathogens.

Blue Bird School Bus Segment VHS 9283 or 9284

30 minutes

Idaho Bus Sales, Inc. presents: Blue Bird Bus Segment from the History Channel's Modern Marvels: The History of Buses.

Bus Driving Tips VHS 9003

12 minutes

Film shows some good tips ranging from pre-tripping your bus to the actual driving. Film distributed by Navistar International. (Copyright 1988)

Children Are Our Future VHS 9013

8 minutes

Section 11

Newscast coverage in Columbus, Ohio, on a bus accident filled with disabled students. Display of the E-Z-ON vest with a 4-point anchor system worn by the students on the bus.

City Driving VHS 9301

30 minutes

Congested roads, distracted pedestrians, last minute detours, one-way streets, constant starting and stopping – these are a few of the challenges that every city can present to the professional school bus driver. Having a thorough trip plan, defensive driving guidelines, communicating with other drivers, keeping a safety cushion around your bus, alert, aware and ready for anything, and a good attitude is important too. (Copyright 2003)

Communication Wheel, The VHS 9266

19 minutes

Section 11

Special needs video produced by the Colorado Department of Education and Colorado State Pupil Transportation Association. (Copyright 1998)

Conducting the Parent Conference VHS 9055

30 minutes

Section 1

Discussion to help teachers and administrators promote parental cooperation when dealing with their child's behavior. (Copyright 1995)

Confidential Records: Training for School Bus Drivers VHS 9269, 9270

16 minutes

Section 1

Explains the legal and practical issues concerning confidential student information contained in education records. With this information, pupil transportation officials can work more closely with school administrators and special educators to ensure that their drivers have – and use correctly – the information needed to support safe, orderly, and efficient transportation for all students. (Copyright 1999)

Counting on You VHS 9010

12 minutes

Section 3

General bus driving tips from pre- to post-trip inspection. Good overall review. (Copyright 1989)

Defensive Driving VHS 9308**10 minutes**

The main objective is to instruct drivers on the critical elements of defensive driving. A secondary objective is to establish an internal alarm system in drivers that causes them to constantly drive defensively and anticipate hazards. (Copyright 2003)

Discipline - A Positive Approach, School Bus VHS 9048**134 minutes***Section 5, 6*

The program consists of four video-training tapes and a reproducible manual that can be used to help drivers, teachers and administrators learn the skills to manage student behavior on the bus. Tape 1: "The Role of Administrators" - 40 minutes; Tape 2: "The Role of Drivers" - 45 minutes; Tape 3: "The Role of Teachers" - 26 minutes; and Tape 4 - "Solving Persistent Problems" - 23 minutes. (Copyright 1992)

Discipline and the School Bus Passenger VHS 9012**24 minutes***Section 10*

Excellent film for all school bus drivers and those considering the profession of school bus driving. Motivates drivers to perform more safely and efficiently. Demonstrates safety, emergency procedures and the exacting nature of the driving task. Presents practical solutions to discipline problems in all age groups. Emphasizes prompt, firm handling of problem behavior from fistfight to vandalism. Deals honestly with major problems.

Driver Development Program, School Bus**5 hours**

A series of 10 VHS cassettes covering all aspects of training the novice school bus driver. This program is required in the training of all new drivers (IDAPA Rule 08.02.G.4,1.a.). Individual titles of this set follow and are recommended for reinforcement of good driving skills. Individual titles may be requested by VHS number. (Copyright 1990)

School Bus Rules & Regulations, VHS 9094 or 9095 (Sec.2)	45 minutes
Fundamentals of Driving, VHS 9096 or 9097 (Sec. 4)	31 minutes
Basic School Bus Driving Techniques, VHS 9098 or 9099 (Sec. 4)	42 minutes
Pre-trip School Bus Safety Inspection, VHS 9100 or 9101 (Sec. 3)	36 minutes
School Bus Accident Procedures, VHS 9102 or 9103 (Sec. 8)	33 minutes
Passenger Emergency, VHS 9104 or 9105 (Sec. 8)	37 minutes
Use of Emergency Equipment, VHS 9106 or 9107 (Sec. 8)	31 minutes
The Catastrophic School Bus Accident, VHS 9108 (Sec. 8)	26 minutes
School Bus Driver Readiness Test, VHS 9110 or 9111 (Sec.5)	27 minutes
School Bus Driver Readiness Test, VHS 9112 or 9113 (Sec.5)	28 minutes

Driver In-Service Safety Series, School Bus VHS 9230

46 minutes

Section 12

Packet contains 3 videos: Preventing Disaster at the Crossing, The Responsibility is Ours, and Walk-Ride-Walk When They are not on the Bus. The safety series books topics are: Administrator Guide, Transportation Supervisor Guide, Loading and Unloading, infants and Toddlers, Driver Attitude, Student Management, Know Your Route, RR Crossings, Vehicle Training, and Child Seats. The packet also includes a disk with a PowerPoint presentation of handouts. (Copyright 1998)

Driving Techniques VHS 9304

30 minutes

The main objective is to establish an internal alarm system in drivers that causes them to constantly – even subconsciously – drive defensively and anticipate hazards. Also, to instruct all drivers on the critical elements of safe driving techniques. (Copyright 2003)

Emergency Evacuation, School Bus VHS 9022

25 minutes

Section 8

For drivers and supervisors. Explains how to make the drill safe for everyone. Shows how to prepare for the drill, getting out of the bus through all exits, where to go after exiting the bus, and procedures to make the scene secure when outside the bus. (Copyright 1997)

Emergency Maneuvers VHS 9305

30 minutes

The main objective is to instruct all drivers of the critical elements of emergency maneuvers. Also, to establish an internal alarm system that causes them to constantly know when and how to use evasive maneuvers to handle a driving emergency. (Copyright 2003)

Fatigue VHS 9259

25 minutes

Section 4

Fatigue kills thousands of drivers. Fatigue may gradually become worse but not be noticed by the driver. This video describes causes of fatigue. Drivers will understand better how to recognize the signs of fatigue. Suggestions for reducing fatigue are given. (Copyright 1997)

Field of Vision VHS 9138 or 9204

8 minutes

Section 4

A video guide to proper school bus mirror adjustment in accordance with FMVSS-111. In conjunction with Dick Fischer, this video is intended to be used as a supplement to your existing driver training programs. (Copyright 1992)

Fire Extinguisher Training: Using the P.A.S.S. Procedure VHS 9205

20 minutes

Section 8

Video discusses various types of fires and extinguishers. (Copyright 1997)

Fire Safety VHS 9252

25 minutes

Section 8

To comply with the OSHA Emergency Action Plan regulations. Explains general fire prevention procedures. Shows how to use a fire extinguisher. Gives information on how to safely evacuate a structure in a fire. (Copyright 1997)

First Aid I – First on the Scene VHS 9207

15 minutes

Section 8

Question and answer format with examples. Video should be used for refresher training and supported with hands-on training. (Copyright 1997)

First Aid II – Injured Victims VHS 9208

18 minutes

Section 8

Question and answer format with examples. Video should be used for refresher training and supported with hands-on training. (Copyright 1997)

First Aid III – Outside Forces VHS 9209

18 minutes

Section 8

Question and answer format with examples. Video should be used for refresher training and supported with hands-on training. (Copyright 1997)

First Aid IV – Crisis Responses VHS 9210

20 minutes

Section 8

Question and answer format with examples. Video should be used for refresher training and

supported with hands-on training. (Copyright 1997)

Five Steps to Safety (Protection from Infectious Diseases) VHS 9064

10 minutes

Section 8

Proper procedures for using a body fluid clean up kit to protect drivers from infectious diseases.

Forewarn Object Detection Systems VHS 9123

10 minutes

Advanced microwave radar technology to warn a bus driver when a child or other object(s) is moving within a danger zone. (Copyright 1992)

For You, the Veteran Driver VHS 9052

25 minutes

Section 12

Jim Ellis, noted transportation expert, looks at the strengths and weaknesses of being a veteran driver, including route hypnosis, lazy eyes, concentration and the importance of training. This program is filled with information and examples to remind veteran drivers the importance of correcting bad habits before they cause a serious problem.

Fox River Grove Accident VHS 9136

5 minutes

Section 6

Replica of the October 25, 1995, Fox River Grove incident.

Freeways VHS 9258

15minutes

Section 7

Accidents can be tragic on freeways, turnpikes, or expressways because of the high speeds at which traffic may be moving. Merging, lane selection, speed management, avoiding wolfpacks, planning ahead, and exiting the freeway are some of the many points covered. (Copyright 1995)

Garrett Metal Detectors VHS 9310 and 9311

25 minutes

This is a training video on anti-terrorism and weapons concealment. It's used by school district transportation systems around the country.

GASCARD Automated Fuel System – State of Idaho’s VHS 9197

10 minutes

Description of how the Idaho GASCARD system works. (Copyright 1996)

Guarding Against Infection VHS 9201

12 minutes

Section 8

Anyone can be carrying a deadly virus. It is critical that everyone knows how to protect themselves from contagious and potentially serious diseases. This video explains the OSHA rules regarding Universal Precautions. (Copyright 1996)

Handrail Recall, School Bus VHS 9074

15 minutes

Education on handrail issues and the inspection procedure.

Heads Up at the Wheel: Home Safe VHS 9237

11 minutes

Section 4

Presentation on staying awake at while driving. (Copyright 1996)

Hijackings: The Prevention Training Video, School Bus VHS 9202

20 minutes

Section 8

Learn how to detect signs of potential hijackers, react appropriately to those signs, and maintain the safety of the children. (Copyright 1997)

Hostile School Bus, The VHS 9081

15 minutes

Section 10

Designed to help school districts develop harassment training programs for bus drivers. (Copyright 1995)

Idaho Lottery Benefits TV 2000 “BUS” VHS 9276

1 minute

This video explains where the money goes from the sale of lottery tickets in Idaho. Does the money really go towards education and Idaho’s schools? The answer is yes. The funds all go back to Idaho’s public schools. (Copyright 2000)

Intervention Strategies for School Bus Drivers VHS 9288**19 minutes***Section 10***Integrated Child Restraint Seat VHS 9015****10 minutes***Section 11*

Instructions on how to use the integrated child restraint seat, which makes the bus rides safer for small children and infant seats.

Intersections VHS 9257**25minutes***Section 4, 6, 7*

Dangers are present at every intersection. Whether “controlled” or “open,” intersections require caution. The right of way rules applying at intersections, both “written” and “unwritten,” are explained. Also discusses how terrain and weather conditions and common courtesy can affect a driver’s decision as to when to accept that right of way. (Copyright 1997)

Legal Issues in School Transportation VHS 9050**103 minutes***Section 1*

Designed to assist principals, special education directors, central office administrators and transportation supervisors in evaluating the district's transportation policies and procedures. The program provides a comprehensive analysis of statutory and case law on issues as: Negligence, safety, distance, special education, discipline, personnel, and cost. Tape 1: "Legal Issues in School Transportation," 57 minutes and Tape 2: "Transporting Students with Disabilities - Legal Issues." 46 minutes. (Copyright 1992)

Master Teacher Series (7 Volumes)**20 minutes each**

This series of 7 videos will help provide bus drivers with consistent direction and training for the many situations they will encounter beyond driving safety. It is not intended as a basic driving course, but rather as a source of information and help for the most common “people” issues faced by bus drivers today. (Copyright 2002)

- | | |
|---------------|---|
| Vol. 1 | The Professional Bus Driver, VHS 9292 (<i>Sec. 12, 9</i>) |
| Vol. 2 | Establishing a Positive Environment on Your Bus, VHS 9293
(<i>Sec.10, 12</i>) |
| Vol. 3 | Dealing with Severe Disruptions, VHS 9294) (<i>Sec. 10, 12</i>) |
| Vol. 4 | Engaging the Support of the School Administration, VHS 9295 |

(Sec. 10, 12)

- Vol. 5** **The Role of the Bus Driver in Public Relations, VHS 9296** (Sec. 10, 12)
- Vol. 6** **A Positive Attitude/Taking Care of Yourself, VHS 9297** (Sec. 9, 12)
- Vol. 7** **Handling Students with Special Needs, VHS 9298** (Sec. 11, 12)

Managing Student Behavior VHS 9024

22 minutes

Section 10

Reviews the basics of handling students. It is a practical video that will be liked both by experience and novice drivers. (Copyright 1996)

Middle School Child and Discipline, The VHS 9001

3 hours

Section 10

Presentation given by Dr. Michael Moody during the 1992 Transportation Supervisors' Workshop in Idaho Falls.

Minnesota School Bus Drivers Development Series (6 Volumes)

- | | | |
|----------------|--|--------------------------|
| Vol. I | Pre-Trip Inspection, VHS 9114 Sec. 3, 8 | <u>16 minutes</u> |
| | Demonstrates a good pre-trip inspection. | |
| Vol. I | Emergency Procedures, VHS 9114 Sec. 3, 8 | <u>21 minutes</u> |
| | How to handle breakdown emergencies and accidents. | |
| Vol. II | School Bus Driving Techniques, VHS 9115 Sec. 4 | <u>10 minutes</u> |
| | More in-depth driver techniques. Some slight differences between Idaho and Minnesota state codes, but still a good film. | |
| Vol. II | Fundamentals of Bus Driving, VHS 9115 Sec. 4 | <u>10 minutes</u> |
| | Shows how a school bus differs from an automobile and provides the basic techniques needed to safely drive a school bus. | |
| Vol. IV | Ghosts of Crossing Grade X, The, VHS 9117 Sec. 5 | <u>19 minutes</u> |
| | Depicts what can happen at railroad crossings and how to avoid a collision with a train from a ghost's viewpoint. | |
| Vol. IV | School Bus Emergency Evacuation, VHS 9117 Sec. 8 | <u>12 minutes</u> |
| | Proper procedures for bus evacuation including what students should do if the driver is incapacitated. | |
| Vol. V | Are You Reading Me?, VHS 9118 Sec. 6 | <u>9 minutes</u> |
| | Covers road signs and the importance in reading them. | |
| Vol. V | Children in Traffic, VHS 9118 Sec. 6 | <u>13 minutes</u> |

Deals with how children perceive traffic and various traffic situations.

Vol. VI Freeway Driving, VHS 9119 Sec.7 14 minutes

Good video for rural schools that take field trips to the city plus metropolitan schools.

Vol. VI Sharing the Road with Big Trucks, VHS 9119 Sec. 7 18 minutes

Video uses trucks and cars for reference, but is a good video for dealing with trucks in the city, on the freeways, two-lane highways and mountains.

NHTSA School Bus Safety VNR VHS 9122 8 minutes

The National Highway Traffic Safety Administration issue warning on school bus handrails. For additional information about school bus recalls you may contact the Auto Safety Hotline at 800-424-9393.

Night Driving VHS 9033 16 minutes

Section 7

The loss of light always makes night driving more dangerous. In the distance you see only lights, reflections, and shadows. Not only are the conditions worse, more impaired drivers are out at night. A driver must be ready to make the most of the light that is available. (Copyright 1995)

Operation Lifesaver VHS 902514 minutes

Section 5, 6

In November 1989, the Idaho State Police put on a demonstration of a train/bus crash at a railroad crossing in Nampa, Idaho. Multiple camera angles are shown to point out the catastrophic dangers that exist at a railroad crossing.

Passenger Safety VHS 9303 30 minutes

This training program is designed to serve as basis training for new school bus drivers and refresher, or post-incident training for veterans. The main objective is to cause drivers to watch out for their passengers' safety and to demonstrate techniques that drivers can use to ensure students' safety. (Copyright 2003)

Passing – Changing Lanes VHS 9032

25 minutes

Section 4, 7

Every pass, every lane change, exposes the driver to danger. When should you do it and how should you do it, legally and safely? Offers strategies for travel on multi-lane highways and for travel in two-way traffic. (Copyright 1997)

Paths of Thunder VHS 9125

20 minutes

Produced by the Florida East Coast Railroad to help drivers understand that trains can't be stopped in time. Drivers could prevent many accidents if they watch the warning signs. This video helps you to have more of an understanding from the train's side.

Pre-trip Inspection, School Bus VHS 9080 or 9023

14 minutes

Section 3

Pre-trip inspection of a school bus is a federal requirement. This film shows how to check dashboard instruments, air brakes, lists and emergency equipment, plus under-the-hood items. During a circle tour of the bus, the driver is taught to check mirrors, wheels, tires, brake lights, flashers and turn signals. A condensed version of a complete brake system check out is also presented.

Precision Backing – Transit (Behind-the-Wheel) VHS 9211

30 minutes

Section 4, 5

Video discusses precision backing techniques for large school buses. Also discusses mirror usage and adjustments. (Copyright 1997)

Precision Right and Left Turns – Small Buses (Behind-the-Wheel) VHS 9214

45 minutes

Section 4

Video uses a small school bus and goes through both rounded and sharp turns using reference points. (Copyright 1997)

Precision Right and Left Hand Turns–Transit (Behind-the-Wheel) VHS 9215

45 minutes

Section 4

Video uses a large school bus and goes through both rounded and sharp turns, using reference points. (Copyright 1997)

Pre-trip Inspection and Brake Test–Small Bus (Behind-the-Wheel) VHS 9212 **30 minutes**
Section 3

Video uses a small bus and goes through the pre-trip inspection and brake test. (Copyright 1997)

Pre-trip Inspection and Brake Test-Transit (Behind-the-Wheel) VHS 9213 **50 minutes**
Section 3

Video uses a large school bus and goes through the pre-trip inspection and brake test. (Uses a California bus with red loading lights only). (Copyright 1997)

Preventing Disaster at the Crossing VHS 9026, 9027, or 9077 **18 minutes**
Section 5, 6 for all

This video program teaches school bus drivers the potential for danger at highway-rail crossings and teaches drivers proper safety precautions. The video takes the viewer to Greeley, Colorado, site of the worst train-school bus disaster in U.S. history. A train/school bus crash to illustrate the tremendous forces involved. A ten-step National Safety Council procedure for safer bus driver actions at highway-rail crossings is outlined. Produced by the Idaho Department of Law Enforcement in cooperation with Union Pacific Railroad, Brown Bus Co., Mayflower Contract Services, Inc. and other safety organizations. (Copyright 1995)

Railroad Crossings VHS 9047, 9200, 9280 **15 minutes**

The potential for a deadly accident exists at any railroad crossing. A train in motion can take over a mile to stop. A driver must be alert to the hazards that exist so that the bus and its passengers are never in danger. (Copyright 1996)

Safe Driving Principles VHS 9060 **18 minutes**
Section 6

Presents examples of many potential driving hazards a school bus driver faces during a daily run and how to prepare for them.

Safe Following Distance VHS 9256 **25 minutes**
Section 4

Tailgating causes thousands of preventable accidents. The “two second/four second” and vehicle length rules are explained. Additional information shows how changing conditions affect safe following distance: weather, road condition, traffic congestion, wind resistance and vehicle speed. (Copyright 1997)

Safest Way Out, The: Driver Version VHS 9124

16 minutes

Section 8

Shows drivers how to properly prepare for and conduct an emergency school bus evacuation. Demonstrates how to assist children in evacuating the bus quickly, how to use all types of emergency exits, and how to secure the scene once the bus has been evacuated. (Copyright 1997)

Safety Guard Crossing Arms and Stop Arms VHS 9030

8 minutes

Section 5

Demonstrates benefits of safety crossing control arms and stop arms. Specialty Manufacturing Co., Inc., Charlotte, North Carolina.

Safety Stop VHS 9140

7 minutes

Product oriented from Transpec Worldwide. Use for driver training. (Copyright 1997)

School Bus Drivers: Positively in Control VHS 9275

13 minutes

Section 9

This will help teach your driver's that with a quick attitude check before boarding the bus, they can manage students, operate safely and efficiently and be positively in control! Other training tips include correct examples of preventive measures drivers can take to improve the safety of students and ensure safe bus operation.

School Bus FYI Commercial Clips VHS 9038

10 minutes

Section 7

Thirty second spot commercials showing rules and safety features of operating a school bus on the public highways.

School Buses & Railroad Crossing VHS 9045 or 9046

17 minutes

Section 5

Describes requirements of Idaho Code, State Board of Education rules, and State Department of Education regulations for school buses crossing railroad tracks. Illustrates stopping distances, proper use of hazard lights, and visual and audio checks before crossing. Shows use of correct traffic lanes and turn out bays at crossings.

School Bus Passenger: Around The Bus VHS 9253

16 minutes

Section 5

Nearly one-third of the student fatalities in school bus accidents result from students being hit by the bus they ride. Describes the actions required of the bus driver to make sure the students load and unload safely. Explains how, when and where the vehicle should be stopped – and where it should not be stopped. Emphasized is communication with the passengers and with other motorists. (Copyright 1993)

School Bus Passenger: On The Bus VHS 9020 or 9254

18 minutes

Section 9, 10

The school bus driver must have control over the bus and the passengers. When there are passengers, smooth driving is a safety item. Explained are rules for handling the equipment as well as requirements for dealing with passengers. The driver who has a good attitude and knows what to do at all times, including emergencies, will have the best driving record. (Copyright 1993)

School Bus Safety - Bus Stops and Danger Zones VHS 9061

11 minutes

A film presentation on student school bus safety featuring segments on danger zones, safety at the school bus stop, and front-cross procedures.

Seeing Hazards VHS 9306

10 minutes

This is used to instruct drivers on the critical elements of seeing hazards. Establishes an internal alarm system that causes them to constantly know when and how to use evasive maneuvers to handle seeing hazards. (Copyright 2003)

Shelley School District #60 VHS 9199

1997 ISP Ride Along and School Bus Safety.

Stop Arm Advertisements VHS 9093

2 minutes

Section 5

Educational advertisements for passing motorists.

Strategies: Dealing with Young Riders VHS 9054

158 minutes

Section 10

Powerful techniques for building rapport with young people, giving directives that kids will follow, interrupting inappropriate behavior, promoting positive plans, and dealing with groups on your bus. (Copyright 1995)

Student Transportation: A Matter of Safety VHS 9016

10 minutes

Discusses options for getting students to school and the costs. Cost comparison of having students ride public transit buses. The school bus system and vehicle are designed for safety. Protecting children is the number one priority for bus drivers. (Copyright 1995)

Tires, “The Critical Factor” VHS 9203

10 minutes

Tire blowout by Michelin. (Copyright 1998)

Using Your Mirrors VHS 9307

10 minutes

This training program is designed to serve as basic training for new school bus drivers and refresher, or post-incident, training for veterans. The main objective is to instruct all drivers of the critical elements of properly adjusting and using their mirrors. A secondary objective is to establish respect for the importance of mirrors in helping drivers maneuver their vehicles safely. (Copyright 2003)

Vans, Non-Compliant VHS 9267

45 minutes

NBC Dateline report on March 31, 1998.

Violence Prevention VHS 9037

45 minutes

Section 10

Consists of manuals and two videos. Video 1 – “A Vision of Hope – Preventing Violence” examines our culture of violence and ways we can reverse its rising tide to create safe and healthy communities. Video 2 – “Preventing Violence – Hope in Action” demonstrates how people from all walks of life and various circumstances are working together to improve the lives of youth and the health and safety of their communities. (Copyright 1997)

Vision Obscuration - Preventing Disaster at the Crossing VHS 9007

10 minutes

Section 5, 6

Re-creation of the collision of a small 20-passenger school bus and tractor-semi-trailer near Snyder, Oklahoma, on November 10, 1993. Video gives recommendations for view obstruction problems.

Vehicle Inspections VHS 9309

10 minutes

The main objective of this video is to provide training to all school bus drivers on the importance of implementing and maintaining a proper, thorough vehicle inspection process, and to follow that same process every time they inspect their bus. (Copyright 2003)

Watching Out VHS 9250

25 minutes

Section 4

A fundamental that is most basic to safe driving is knowing how to use the eyes so that you can be alert to changing conditions. Proper use of the eyes must become a habit, keeping the eyes moving, recognizing and avoiding distractions, being alert for “blind spots” and properly aiming in the distance. (Copyright 1997)

Who's Liable? VHS 9049

19 minutes

Section 1

Have any of your drivers ever asked the question: "If I have an accident which seriously injures another person or causes substantial damage to someone's property, how well am I protected against a liability suit? This program provides the answer to complicated legal issues including the four conditions that have to be met to prove liability duty, breach of duty, cause, and damage or injury. Examples of actual court cases help drivers understand these terms and how they apply when determining the fault in case of an accident. The program also covers the potential for personal fault or liability by the driver.

Why Not You VHS 9040

13 minutes

Section 12

School bus driver recruitment video. (Copyright 1998)

You Can Make a Difference VHS 9120

Section 12

Presentation of Dr. Clifford M. Lee at the 1992 Idaho Pupil Transportation Conference.

You and Your Bus – A Perfect Fit VHS 9137

15 minutes

Section 4

Video used in Idaho's Train-the-Trainer programs. Based on the nationally acclaimed Dick Fischer Driver Training Program. (Copyright 1997)

SCHOOL BUS MAINTENANCE

3800 Bus Features Walkaround VHS 9056

20 minutes

International bus features. (Copyright 1998)

3800 Competitive Walkaround VHS 9076

17 minutes

ABS, Air Generation System VHS 9246

Bendix ABS air generation system. (Copyright 1993)

ABS, Easy-Stop Trailer Training Program VHS 9243

38 minutes

Learn the operation, diagnosis, and repair on WABCO Easy-Stop Trailer ABS systems. (Copyright 1998)

ABS, Emergency & Parking Brake System VHS 9248

Bendix ABS emergency and parking brake system. (Copyright 1993)

ABS, Service Brake System VHS 9247

Bendix ABS service brake system. (Copyright 1993)

ABS System VHS 9240

7 minutes

AntiLock brakes for Navistar. (Copyright 1993)

ABS, Tractor & Trailer Brake System VHS 9249

Bendix ABS tractor and trailer brake system. (Copyright 1993)

ABS, Training Program VHS 9242

26 minutes

Video discusses three areas: (1) Understand how the Meritor WABCO ABS and ATC operate; (2) Diagnose ABS and ATC faults; (3) Locate and Replace ABS and ATC components. (Copyright 1998)

ADA Lift Testing VHS 9008

12 minutes

VCR produced by The Braun Corporation. (Copyright 1993)

Bridgestone – Reducing Irregular Wear VHS 9273

27 minutes

What irregular wear is and what causes it. How to “read” a tire to detect irregular wear. Where to find information on irregular wear conditions. How good maintenance can reduce the occurrence of irregular wear. How alignment and tire rotation can reduce irregular wear. The “S.M.A.R.T.” way to prevent irregular wear.

Bridgestone – Scrap Tire Analysis VHS 9274

27 minutes

How scrap tire analysis can help you reduce tire costs. What records to keep concerning scrap tires. How to inspect a scrap tire. How to recognize common tire problems. Where to find information about out-of-service conditions. What actions to take as a result of scrap tire analysis.

Building a Better Bus VHS 9139

5 minutes

Overview of the features and benefits of the Freightliner FS-65 school bus chassis. (Copyright 1997)

Changing and Testing Batteries VHS 9009

20 minutes

Basic and detail information on how a battery works and how to safely test and change a battery.

Dual Air Brake System Training Program VHS 9300

60 minutes

This video is geared towards the bus driver and mechanic. The video is divided into three sections. The first will describe all of the component parts, the second will take the bus driver through the pre trip inspection. The third section talks about trouble shooting and how to identify common problems. (Copyright 2003)

Fluke T88 Training Package VHS 9236

Self-paced training program. Includes video, workbook and tester. (Copyright 1993)

Ford Medium Truck Hydraulic Brake System VHS 9002

30 minutes

Maintenance video on Lucas brakes.

Handrail Recall, Bus VHS 9074

17 minutes

Education on handrail issues and the inspection procedure. (Copyright 1995)

Hose and Clamps for Tomorrow's Trucks VHS 9135

10 minutes

Discusses different types of Bluebird and John Deere engines. Lists various aspects that the engines offer. For example: power, less pollution, fuel costs, performance, etc. (Copyright 1997)

Hunter 400T Brake Tester VHS 9148

5 minutes

Video demonstration on the Hunter Engineering Company's computerized brake tester for heavy-duty vehicles. (Copyright 1997)

International Electronic Diesel Engines VHS 9229

8 minutes

Features of International engines. (Copyright 1998)

John Deere Power Tech 8.1L CNG Engine Testimonial VHS 9078

10 minutes

Discusses different types of Bluebird and John Deere engines. Lists various aspects that the engines offer. For example: power, less pollution, fuel costs, performance, etc. (Copyright 1995)

M.D. Alignment "Common Man's Guide to Wheel Alignment" VHS 9289

25 minutes

This video/book will outline the system in measuring trucks for alignment. It will explain the popular methods of wheel alignment measurement and the relative strengths and weaknesses of each. There will be a representative sampling of tire wear patterns for trucks and what causes each.

Michelin User Seminar VHS 9234, 9235

50 minutes

A four-part video: (1) Exploring the edge-truck; (2) ATTACC plus; (3) Fundamentals of tire wear; (4) Critical factor/school bus. (Copyright 1999)

Navistar/Mesa Retarder VHS 9198

Product oriented.

Safety Stop – Transpec Worldwide VHS 9140

Product oriented.

School Bus Maintenance VHS 9042, 9043, or 9044

30 minutes

Section 13

Film shows the procedures for inspecting a school bus from a mechanic's point of view.

Self-Directed Service Training, DT 466E & INTERNATIONAL 530E VHS 9244

The DT 466E Pre-course Training Program consists of three workbooks and corresponding videos on the following topics: Introduction/components, electrical/electronics, diagnostics. (Copyright 1995)

Self-Directed Service Training, Preventive Maintenance VHS 9245

Section 13

This program addresses the following: Fuel island inspection, daily driver inspection, PM program, technician training, monitoring system, audit process. (Copyright 1995)

Self-Directed Service Training, T 444E VHS 9079

The T 444E Pre-course Training Program consists of four workbooks and corresponding videos on the following topics: introduction to the T 444E, T 444E components, T 444E electronics, and T 444E diagnostics. (Copyright 1995)

Transvector Heating Systems VHS 9278

6 minutes

This video discusses heating systems.

SCHOOL BUS PASSENGERS

Building Safety Through Teamwork VHS 9005

8 minutes

Section 8

Each bus needs evacuation leaders. Video is designed to teach students the steps in school bus emergency evacuation as a team

Bus Stops and Danger Zones VHS 9061

11 minutes

A presentation on student school bus safety featuring segments on danger zones, safety at the school bus stop, and front-cross procedures.

Education – Goodyear Tires Makes It Happen VHS 9196

7 minutes

An educational video to explain the technology behind producing tires. It also illustrates how many disciplines have to work together to produce the final product. Jobs ARE becoming more and more technical and it encourages students to stay in school and learn all they can so they can have a bright future. (Copyright 1997)

Emergency School Bus Evacuation VHS 9067

7 minutes

Section 8

Classroom film designed to give all elementary grade students a basic understanding of procedures for evacuating a school bus under emergency conditions. Can be used as an orientation program before actual school evacuation drill practice. Good demonstration. Geared to teach the students, but would be useful for drivers to watch.

Iowa School Bus Safety Program VHS 9018

28 minutes

Video is designed to give your students a solid foundation in the “ABC's of School Bus Safety.” Objective is to cultivate conscientious, safety-minded school bus passengers in your school system. To accomplish this goal, a comprehensive 10-lesson program has been developed that should benefit students throughout their school years, and later in life as drivers. Produced by the Iowa Governor's Traffic Safety Bureau in cooperation with the Department of Education. Includes Instructional Guide available upon request. (Copyright 1990)

Operation School Bus Safety - Be Cool, Follow the Rules
VHS 9083, 9084, or 9092

15 minutes

Imagine you are a Secret Agent with an important mission: safely escort a queen to school on your school bus. She has never ridden a school bus before and does not know the rules of school bus safety. Could you teach her the rules and get her to school safely? That's the mission of this video. Ideal for K-4.

Otto the Auto - Series E VHS 9068

20 minutes

Wouldn't recommend for school bus driver training. Animated - would be good for training small children to wear seat belts. (Copyright 1991)

Pedestrian and Bus Safety, School VHS 9069

8 minutes

Discusses bus safety rules and understanding why the rules are important. Video is directed toward students in grades 4-6.

Pooh's Great School Bus Adventure VHS 9063

8 minutes

This program demonstrates and encourages the rules and procedures that ensure our children a safe ride to and from school. It deals not only with the ride itself, but also with waiting for, boarding and getting off the school bus. It also deals with safe practices after exiting the bus, where there is a two and one-half times greater chance for injury. The adventures of Winnie the Pooh and his friends as they journey to take Christopher Robin his "lunch" will teach our children how to approach their daily journeys toward education in the safest possible way. Walt Disney Educational Productions.

Regarding Amy VHS 9073

15 minutes

The major issue of this video is seat belts in school buses. The film also discusses school bus seats, crash studies, and danger zones. It is almost Amy's first day of school and the goal is to teach Amy and her parents school bus safety concerns. (Copyright 1995)

Safest Way Out, The: Student Version VHS 9121

12 minutes

Shows children how to properly prepare for and execute an emergency school bus evacuation. Demonstrates how to safely exit from front, rear, side, and multiple exits, emergency windows and roof hatches, and when each exit is appropriate. (Copyright 1997)

Safety Video, School Bus VHS 9011

25 minutes

Ten bus rules of conduct for passengers. School bus safety and evacuation, loading and unloading, emergency brakes, 2-way radio, and emergency exits. (Copyright 1995)

Sly Fox and Birdie VHS 9127

10 minutes

This cartoon teaches smaller children to stay away from railroad tracks and introduces them to safety at highway-rail crossings. The animated production uses two friendly characters interacting with each other. (Copyright 1992)

Stand for What is Right VHS 9041

60 minutes

This one hour music movie video features a true life account from his performances and travels throughout the U.S. featuring hard hitting interviews with young people about the issues of racism, drugs, alcohol, suicide, gangs and violence and their decisions of "Compromise" or to "Stand for What is Right." (Copyright 1997)

Thinking About School Bus Safety VHS 9065

8 minutes

Geared to teach kids in grades 4-6 which concerns proper and safe school bus behavior. This film uses peer interaction to present the safety message and avoids concentration on negative behaviors. It can be used to supplement existing school bus safety programs presented by teachers and local police safety officers. Note: Mentions "safety assistants" which do not apply in Idaho.

Walk-Ride-Walk: Getting to School Safely VHS 9070 or 9072

This course is designed to improve the pedestrian safety of the elementary school bus rider. It covers the child's entire trip from home to school and back again. Thus, it includes procedures for walking to and from the bus stop, waiting at the bus stop, arrival of the bus, crossing to and from the bus, boarding the bus, riding the bus, exiting the bus, and evacuating the bus in an emergency. Separate Teachers Guides are provided for each grade level from kindergarten through grade 6. (Copyright 1995)

Winter Conditions: Safe Bus Riders VHS 9071

10 minutes

Section 7

Educational video teaching kids how to be safe bus riders. Focuses on winter riding/driving procedures.

With Rae the Mime VHS 9062

10 minutes

Teaches the six bus safety rules to make it a safe ride every day. Rae the mime is breaking all the rules and other children have to tell/show her what is right.

SPECIAL NEEDS

Advanced Techniques for Special Ed Bus Drivers VHS 9262

18 minutes

Section 11

This video takes you into the field to experience first hand what a special ed bus driver is required to do.

Autism: Special Planning for Special People VHS 9000

13 minutes

Section 11

This video was produced for school bus personnel as a teaching aid for working with autistic individuals. It depicts statistical information regarding autism, behavioral characteristics, and suggests methods of managing behavior. Instructor's Guide available. Albuquerque Public Schools. (Copyright 1988)

Bus Evacuation for Special Ed Bus Drivers VHS 9271

18 minutes

Section 11

Bus evacuation for special ed bus drivers.

Car Seats on School Buses VHS 9279

20 minutes

Section 11

Car seats on school buses is about safe solutions for transporting children, how to use car seats correctly on school buses and also covers: vehicle specification changes, attend I.E.P. meeting, and know your car seat.

Epilepsy: Special Planning for Special People VHS 9014

Section 11

This videotape deals with the nature of epilepsy and the most common types of epilepsy, recognition of a seizure, how to handle a seizure, and response to an individual need. Instructor's Guide is also available. Albuquerque Public Schools. (Copyright 1988)

Intervention Strategies for Special Ed Bus Drivers VHS 9277

20 minutes

Section 11

This video is designed to show bus drivers how to intervene when inappropriate behavior occurs on a school bus. It emphasizes common sense techniques that all special ed bus drivers can utilize. Importance of teamwork between parents, bus driver and spec ed teachers, of making sure the students understand rules when riding the bus and how to implement a problem solving technique when a student misbehaves.

It Can Happen: Evacuation of Children with Special Needs from School Buses VHS 9206

28 minutes

Section 11

Very detailed evacuation of special needs students. Should be supported with hands-on training.

Q'Straint Occupant Restraint System VHS 9028

17 minutes

Section 11

1) "Getting to Know," 6 minutes; 2) Q'Straint and You, 11 minutes; and 3) 1 and 2 Combined. Safe transportation of the wheelchair user.

Q'Straint QRT VHS 9268

5 minutes

Product oriented for an automatic retractable securement system. (Copyright 1999)

Ricon Advantage, The VHS 9004

6 minutes

Section 11

Product oriented. Use for driver training. (Copyright 1998)

Ricon S-Series Transit Operation VHS 9019

18 minutes

Product oriented. Use for driver training. (Copyright 1998)

Safe & Secure - A Kinedyne Training Program VHS 9034, 9035, 9036, or 9082 **30 min.**
Section 11

This effective and comprehensive program is a valuable resource for new-hire and refresher training. It incorporates a Leader's Guide, video, interactive curriculum, and covers a variety of important topics such as: pre-trip inspection, securing the mobility aid, protecting the occupant, system care and maintenance, and component and assembly operation. (Copyright 1995)

Safest Way Out, The: Special Needs Drivers VHS 9126 **16 minutes**
Section 11

Shows drivers of special-needs school buses how to properly prepare for and conduct an emergency evacuation. Explains in detail how to release wheelchairs from modern restrain systems, how to properly lift mobility-impaired children, and how to assist hearing and visually impaired children. (Copyright 1997)

Sexuality and Socialization for Students with Disabilities VHS 9057 **9 minutes**
Section 11

Discussion on understanding and preventing inappropriate behavior on the bus. Students with disabilities have the same emotional and physical needs, desires, and dreams as those without a disability. (Copyright 1995)

Special Needs Series (Set of 6) **80 minutes**
Section 11

Set of six VHS cassettes covering the importance of our special needs population. Request the following by title:

Introduction, VHS 9085	13 minutes
Loading & Unloading, VHS 9086 or 9087	14 minutes
Evacuating, VHS 9088	16 minutes
Transporting the Physically Handicapped, VHS 9089	16 minutes
Transporting the Mentally Handicapped, VHS 9090	13 minutes
Transporting the Emotionally Handicapped, VHS 9091	12 minutes

Wheelchair Management VHS 9058
Section 11

Covers the problems caused by the many variables in wheelchairs from the differences in construction to the ways in which they must be secured on the bus.

BOOKS/PUBLICATIONS

201 Icebreakers #9239

Section 1

By Edie West, 1997. This book has 201 icebreakers divided into categories to help in selecting an icebreaker for a particular use or purpose.

Access and Mobility #9264

Section 11

This book is a guide for transporting students with disabilities in California; however, it has a lot of good tips that are useful for training in Idaho.

Answer Book on Transporting Students with Disabilities #9299

What do I do when....The answer book on transportation for students with disabilities. The bus stops here: defining transportation obligations to students with disabilities. 2001.

Art of Teaching Adults, The #9233

By Peter Renner, 1994. How to become an exceptional instructor and facilitator. 1994.

Attitude: Your Most Priceless Possession #9232

Section 9

By Elwood N. Chapman, 1995. A fifty-minute series book. Read and Learn: (1) How a positive attitude can trigger enthusiasm and enhance creativity, (2) How to keep people from stealing your positive attitude, (3) The eight attitude adjustment techniques, (4) How attitude affects the work environment and career success.

Big Book of Business Games, The #9218

By John Newstrom & Edward Scannell, 1996. This book contains dozens of group games and activities for managers and team leaders to use with their departments, staff, or committees, or for anyone to use with a sleepy audience.

Bus Attendant Trainee Workbook #9231

Section 11

By Pupil Transportation Safety Institute. Workbook for bus attendant training. 1995.

Bus Attendant Training Manual #9075

Section 11

Guidance manual for bus driver training.

Coaching the Experienced Driver II #9281 & 9282

Section 12

This is a defensive driving course which includes comprehensive coverage of collision-prevention techniques, a non-lecture participant-intensive educational approach, modular training format, and easy-to-use leader's guide. Workbook must be purchased separately by calling ICRMP at 208-336-3100 x239. Cost is \$1.00. This course may be presented in one 3-1/2 hr. session, or broken into shorter training sessions.

Enlightened Leadership #9238

Section 1

By Richard J. Spady and Cecil H. Bell Jr., 1998. This book, Volume 2, presents the fundamentals underlying Many-to-Many Communication, Zeitgeist Communication, and the Fast Forum technique.

Great Session Openers, Closers, and Energizers #9051

By Marlene Caroselli, 1998. This book is divided into three sections, each contains over 30 activities. These activities challenge participants to combine their collective talents to solve problems, make decisions, answer questions, create new knowledge, and synthesize their thoughts. In doing so, participants interact in ways that make learning more enjoyable.

How to be the Life of the Podium #9220

By Sylvia Simmons, 1991. A professional ghostwriter's collection of platform-tested material that creates polished, lively speeches on any subject and in virtually any situation. You'll also be introduced the 10-step Simmons System – a foolproof method for organizing, writing and editing your speech so that it will flow naturally and build to your point.

How to Prepare, Stage, and Deliver Winning Presentations #9219

By Thomas Leech, 1993. The definitive guide to presenting before a group of people. Sure to give a boost to both your professional visibility and success, it proves practical advice on targeting the audience, overcoming stage fright, presenting to an international audience, projecting the right image, testing material before the big event, and handling the most irritating – even hostile - audience.

Inspire Any Audience – Proven Secrets of the Pros for Powerful Presentations #9216

By Tony Jeary, 1997. This book is a well organized tool chest; a collection of immediately useable ideas that will improve your performance in front of any room. This book is like a 3-week course covering: Preparing your presentation, solving those nervous jitters, exceeding audience expectations, using tools effectively, and getting action from your audience.

Living the 7 Habits #9265

Section 1

This is a book of stories about people from all walks of life dealing with challenges in their businesses, communities, schools, and families, as well as within themselves – showing how they applied the principles of “The 7 Habits of Highly Effective People” to these challenges and the results.

More Games Trainers Play #9217

By Edward E. Scannell and John W. Newstrom, 1993. This book is a compilation of proven instructional aids designed to help you, the professional trainer, boost confidence, teach important business skills, and create enthusiasm and interest among the participants in your training programs.

Motor Age Self-Study Guides (Set of 7) #9321 and 9322

Set of seven books to use as a study guide when preparing to take the Medium/Heavy Truck Series ASE Tests, 2005.

- Body Systems and Special Equipment, Test S1
- Diesel Engines, Test S2
- Drive Train, Test S3
- Brakes, Test S4
- Suspension and Steering, Test S5
- Electrical/Electronic Systems, Test S6
- Preventive Maintenance Inspection, Test S7

Pedestrian Safety Curriculum #9260

Prepared for Washington State Department of Transportation, 1996. A guidebook for student pedestrian safety. Includes slides and various activity books for children.

Pupil Transportation Management #9285 & 9286

Section 1

A book written for transportation directors, business managers, and contractors. This book helps to understand what it takes to be a successful transportation director; how to manage; how to make decisions, and how to live in a profession few people know and understand.

Reduce School Bus Idling: Key to a Healthier Ride #9314, 9315 & 9316

The U.S. Environmental Protection Agency's Clean School Bus. USA Partnership is proud to announce the availability of a new video to educate school bus drivers, fleet operators and school officials about the benefits of reduced idling. Idling buses wastes fuel and money. Typical school bus engines burn about half a gallon of fuel per hour of idling. School districts that eliminate unnecessary idling can save significantly in fuel costs per year. In addition, idling school buses can pollute air in and around the bus. Minimizing children's exposure to diesel exhaust is good for their health. Healthy children are more ready to learn and achieve.

School/Law Enforcement Partnership Guide #9312 & 9313

A guide to police work in public schools. Disguised weapons – the art of deception. These books provide knowledge to those whose duties require them to be aware of these dangers. Two books.2003

School Bus Driver In-Service Safety Series #9290 & 9291

Section 12

Book and one PowerPoint presentation: Teaching bus drivers about driving under adverse weather conditions and transporting students with special needs. The first module focuses on weather conditions that present driving challenges. The second module is intended as an in-service refresher training for drivers and transportation personnel of students with special needs.

Taming The Beast #9272

Section 1

By Frema Engel, 1998. Supported by case studies, this book examines organizational patterns, practices and culture to show how workplaces “invite” violence and why violence is fast becoming the number one occupational health and safety issue across North America. It explains how an improved organizational response to conflicts and grievances can greatly reduce violence at work and prevent tragedy.

Trainer’s Handbook, The #9223

By Garry Mitchell, 1998. This book is guided for all levels of training experience. New trainers will use it to get up to speed with practical, hands-on instruction. Experienced trainers will depend on it for guidance in tackling new tasks, keeping abreast of fresh developments in the field, and refining seldomly used skills. Training managers will turn to it for advice on training and developing new managers and trainers, handling administrative duties, and evaluating people and training programs.

Trainers Tool Kit, The #9221

By Cy Charney and Kathy Conway, 1998. Packed with hundreds of proven techniques, it is the perfect resource for managers who are suddenly asked to train and need a training crash course – or for training professionals in need of a quick refresher.

Training for Non-Trainers #9222

By Carolyn Nilson, 1990. As a manager of the 1990’s, you may find yourself in a new but uncomfortable role – as a trainer of employees. What skills and knowledge do you need? How can you find time for training while juggling other management tasks? Filled with checklists, sample lessons, and typical workplace scenarios, this book supplies you with all the techniques a novice trainer needs to provide effective, money saving training.

Federal law prohibits discrimination on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, or marital or family status in any educational programs or activities receiving federal financial assistance. (Title VI and VII of the Civil Rights Act of 1964; Title IX of the Educational Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.)

It is the policy of the Idaho State Department of Education not to discriminate in any educational programs or activities or in employment practices.

Inquiries regarding compliance with this nondiscriminatory policy may be directed to State Superintendent of Public Instruction, P.O. Box 83720, Boise, Idaho 83720-0027, (208) 332-6800, or to the Director, Office of Civil Rights, Seattle Office, U.S. Department of Education, 915 Second Avenue, Seattle WA 98174-1099, (206) 220-7880; FAX (206) 220-7887.
